Dear Gene:

25X1A9a

[REDACTED] your article, "Soviet Pipelines and Oil Exports" (appearing in Current Intelligence Weekly Summary, 23 July 1959), was discussed. We both thought that it was excellent, but such a pity to be classified NOFORN. In line with our discussions when you were here in May, it's a fine opportunity to have an exchange of views [REDACTED] on your field.

We both are aware of the reasons for the NOFORN but feel we ought ask, nevertheless, whether permission can be obtained to show it [REDACTED] If this is not possible can the article be rewritten with the NOFORN sections omitted, so that there can be an exchange of views [REDACTED]

Everything is fine here including the weather (still!). We assume you will probably see JS during his stay back there. Our best regards.

Sincerely,
